

## **Nexans Hellas celebrates 50 years of innovation and excellence in the energy sector**

### **PRESS RELEASE**

- **Since 1973, Nexans Hellas has contributed to iconic projects in Greece and abroad, including electrification projects in Europe, Middle East and Africa**
- **The high engagement rate of over 240 Nexans Hellas employees reflects the teams' engagement to contribute to electrification projects all over Greece and beyond.**

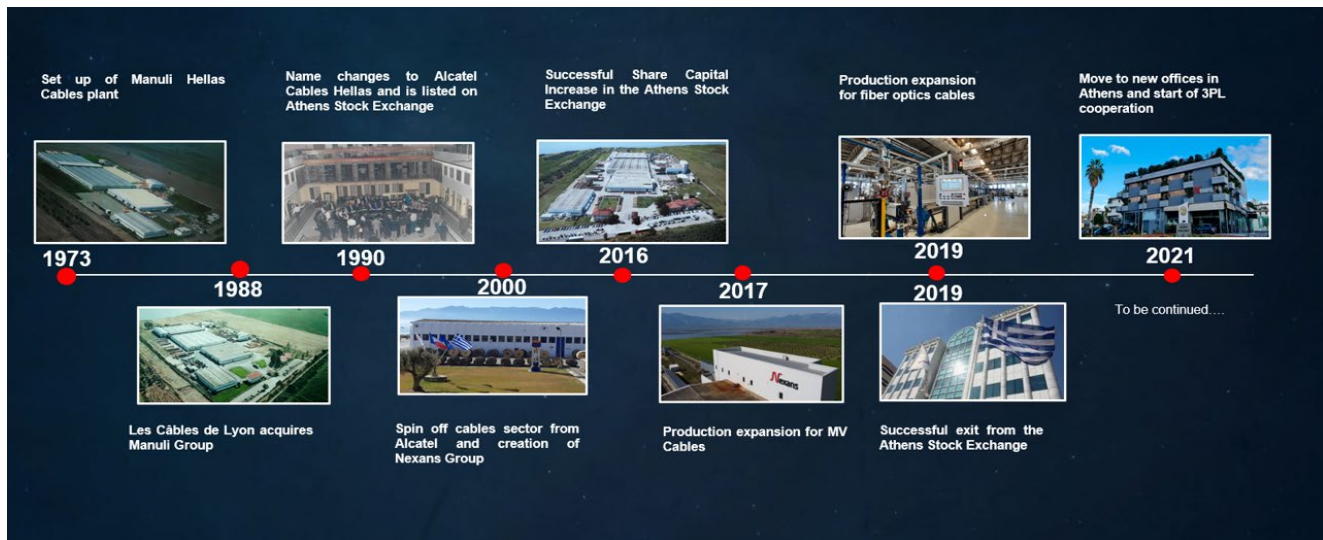

**Athens, May 17, 2023** - Nexans Hellas celebrates its 50<sup>th</sup> anniversary. Since the foundation of Manuli Hellas Cables in 1973, the company has been playing a key role in the electrification of the country as well as Europe and beyond. With its world-renown expertise in cabling solutions for Building, Utilities and Renewables, Nexans Hellas' cables can be found in some of the landmark projects in Greece and across the globe, such as the Athens Metro, the high-voltage Pallini-Ampelokipi interconnection, the Ellinikon infrastructure project as well as Victoria metro line in the UK, and Sere Wind farm in South Africa.

In addition to its contribution to the energy industry, Nexans Hellas has been committed to the communities in which it operates. Over the past decade, Nexans has invested in the opening of a new logistics center and the expansion of local production lines in Greece in order to better serve the local and international markets. Aligned with the [Group's E3 ambition](#) (Economy, Environment, Engagement), Nexans Hellas has been taking targeted actions in order to reduce its environmental impact by cutting down its energy consumption, replacing old equipment by more sustainable alternatives, and cooperating with local certified suppliers committed to conservation and sustainable use of natural resources. For the past 2 years, the engagement rate of over 240 Nexans Hellas employees has been among the highest in the Group, according to the internal employee satisfaction survey, reflecting the teams' engagement to contribute to electrification projects all over Greece and beyond.

*"Our 50-year journey is a testament to our commitment to excellence, innovation, and sustainability", said Mr. Athanasios Gavriil, CEO of Nexans Hellas. "But most of all, it illustrates the dedication of our employees throughout the decades. As part of the Nexans family, we are thrilled to leverage on our legacy and know-how to create more sustainable and efficient solutions for electrifying the world of tomorrow."*

### **Nexans Hellas History**

- 1973 – Manuli Hellas Cables plant is founded in Lamia, Greece

## About Nexans Hellas

Nexans Hellas, a member of multinational Nexans Group, as a pure player in electrification, has been manufacturing medium and low voltage power cables in Greece, in the wider region of Fthiotida, for 50 years. We are a driving force for the development of Greek industry and exports, thus actively supporting the local community and CSR actions. We implement our Group's new strategy "Electrify the Future", by producing cables and delivering them worldwide. For more information, visit [www.nexans.gr](http://www.nexans.gr)

## **About Nexans**

For over a century, Nexans has played a crucial role in the electrification of the planet and is committed to electrifying the future. With 28,000 people in 42 countries, the Group is paving the way to a new world of safe, sustainable and decarbonized electricity that is accessible to everyone. In 2022, Nexans generated 6.7 billion euros in standard sales. The Group is a leader in the design and manufacturing of cable systems and services across four main business areas: Power Generation & Transmission, Distribution, Usage and Industry & Solutions. Nexans was the first company in its industry to create a Foundation supporting sustainable initiatives, bringing access to energy to disadvantaged communities worldwide. The Group pledged to contribute to carbon neutrality by 2030.

Nexans. *Electrify the future.*

Nexans is listed on Euronext Paris, compartment A.
